FOR IMMEDIATE RELEASE

December 1, 2009

THE NATIONAL SILVER ALERT® PROGRAM CAN SPEAK FOR YOU WHEN YOU CANNOT
National Silver Alert Expands Free Online Registration Program

Palm Harbor, FL - Continuing to build on its highly successful launch of the free online registration program, National Silver Alert, Inc. announces expanded benefits for current and future members.

Members can now update their profiles to include the following:

- Multiple Physicians
- Multiple Emergency Contacts
- Multiple Vehicles
- Medications
- Surgical Procedures
- Conditions
- Allergies
- Living Will

In addition, members can now update their current photo and personal information, and delete information that may no longer be needed.

All information is stored in a secure, (SSL encryption), online database, and is only shared with emergency responders and medical facilities in the event of an emergency via the National Silver Alert call center's 24/7, toll-free, emergency phone number.

The information will provide emergency responders with a baseline from which to begin treatment, as well as the ability to contact personal physicians and loved ones.

The National Silver Alert program was developed to provide vital information to authorities to assist in the search and safe recovery of individuals with Alzheimer's disease and other cognitive disorders, and quickly reunite them with their loved ones and/or caregivers.

For more information and to register, please visit <http://www.nationalsilveralert.com>
